

C & S PRODUCTIONS

"Entrepreneurs of Entertainment"

Audio & Recording Sound System for Hire

"Let us supply the equipment & personnel for your next concert, recital, or any other occasion that requires a professional sound system"..... also, ask about our new Recording capabilities to make your Presentation Audio CD of your band.

Audio System Design

A sound company uses audio design to enhance the acoustics of individual venues. Speaker placement and type make a difference in how the audience enjoys the event's sound.

Great sound for your venue

Our audio engineering and sound system design will optimize your acoustical needs to project voices with clarity, and music with the fullness and richness that you require. C & S Productions creates an environment that impresses your audience while keeping within your budget. We combine this with a sensitivity of the event content to provide a sound that excites, captivates, and brings out the best of the total show concept.

The sound you'll remember

Our sound system rental provides everything pro audio from **loudspeakers, amplifiers,** and a **console** through microphones, monitors and effects. Our sound engineers and technicians will handle every detail, making sure that your event's sound thrills your audience.

Professional audio you can depend on.
